You don't often get email from mbh@cottesloe.wa.gov.au. [Learn why this is important](#)

To Whom it may concern,
I am providing a response to the above survey, thank you for this opportunity.
It appears most of the changes are aimed at simplifying the annual waste data return, which the Town supports, but there are other proposed changes that may pose an issue for Cottesloe.
One example is mandatory reporting of tonnages for waste from local government activities including illegal dumping, street sweepings, event bins and public waste bins. (we can currently estimate the last two based on bin capacity and number of collections). This may be an issue based on lack of resourcing and therefore an impost on the Town which is not supported.
Participation rate in kerbside services is another field to be mandatory. Currently our contractor is unable to provide this data so this would be another impost the Town could not support.
We are not a large LG area with limited resources and capacity, it is requested the impact on smaller councils be taken into account when making changes that may create difficulties in compliance..
Graeme Bissett
